## Giving It Away **FREE!**

Original Sugar Hill Rhythm Section drummer Keith LeBlanc delved into his personal archive, remixed hours of classic Drum Beats and Loops, and is making them available to what he sees as a tremendously talented new generation of musicians.

After years of work, Keith committed finished work to discs, and enthusiastically went in search of a distribution company.

Keith found the "business" process of distributing his sample CD-roms so confusing, tedious and downright maddening that he was tempted to abandon the project completely ... but then came the obvious solution ... GIVE IT AWAY FREE.

"I was literally sick after my last conversation with an online distributor who was explaining all the legal hoops and obstacles I'd have to jump through and clear in order to make so little money.

"Of course we all have to eat and pay the rent, but I've NEVER been a musician who cared about profit first ... I PLAY FOR THE PURE JOY OF IT.

So now, KEITH IS HAPPY to make his entire sample catalog available for FREE DOWNLOAD on his website.

The only thing Keith is asking in return is that as you share your Mixes, you simply mention his name. And of course he's also interested in hearing your finished work ... so if you feel it, send an MP3 to [submissions@blancrecords.com](mailto:submissions@blancrecords.com).
